Permanent Library.

This copy has a few leaves of text in facsimile. I gave McLacy £20 for an unbound copy wanting several leaves, I think the present copy, but I am not sure.

As a rule, I do not retain + the original when I have a satisfactory lithographic F.S., but an exception is made in this instance on account of the water-marks.

+ This was a rule I was commencing to make, but did not keep long in that mind.
